HAIS R. E. Karin Loya

HAIS Response Date 11/1/95

This RID indicates that an external view of production plans vs. actuals is missing. Related RID #93 addresses the specifics of a report that will be produced with plans vs. actuals. The focus of this RID, however, is on providing an external view of production plans vs. actuals report. The Planning Subsystem design, as presented, supports external (other DAACs, SCF, SMC) views. This is done via the Document Data Server. Section 4.7.4 of the Planning Subsystem Design Specification describes reports. Section 3.2.3.2.2 describes publishing plans and WWW access. Section 4.7.4 will be updated to indicate that the plans vs. actuals report is accessible to the external world via WWW access.
